

Electronic Access Control Systems and Equipment

Access Technologies is a leading supplier of electronic access control equipment to the automatic gate and construction industries.

We can supply, install, and service most types of electronic access control equipment including the following:

Proximity cards

- ☑ Remote controls for automatic gates and roller doors.
- ☑ Keypads for gates and building entry.
- ☑ Swipe card systems for building entry, gates, and automatic doors.
- ☑ Wireless access control systems—where cables can not readily be installed.
- ☑ Intercom systems for apartment buildings and commercial premises.
- ☑ Road loops—for free exit of vehicles.

Radio Remote Controls

PIN-code Keypads

Fitment of remote controls to existing automatic doors and gates.
