

Stainless Steel Asset Protection Bollard

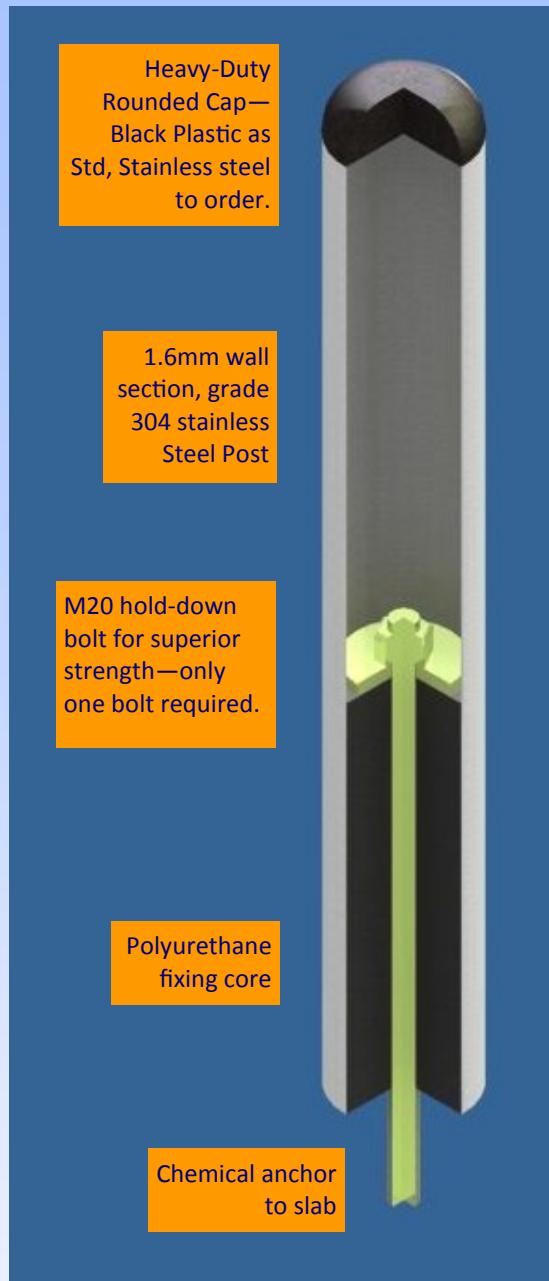

Clean Polished Finish

Stainless Steel Asset Protection Bollards are ideal for the protection of expensive assets such as refrigerators and medical equipment from carts and trolleys. These bollards give the sleek, clean look of stainless steel without sacrificing strength or impact resistance—and will ensure that your equipment, racks, cases, doors, and fixtures continue to look great for longer.

These bollards are designed to be easily installed (only one hold-down bolt) in high traffic areas—**offering protection to:**

- Supermarket refrigerators and display cases.
- Hospital equipment, windows, and doors.
- Warehouse racks and fixtures.
- Stock display cases.
- Food display cases in cafes and food outlets.
- Entrance doors and windows in shopping centres.
- Entrances and reception areas in car showrooms.

NOTE: For indoor use only
