

# Rubber Wheel Stops

## (Parking Stops—Car Stops)

**Rubber wheel Stops** are both durable and economical. Our rubber wheel stops are moulded in a single piece from recycled materials with added reflective panels.

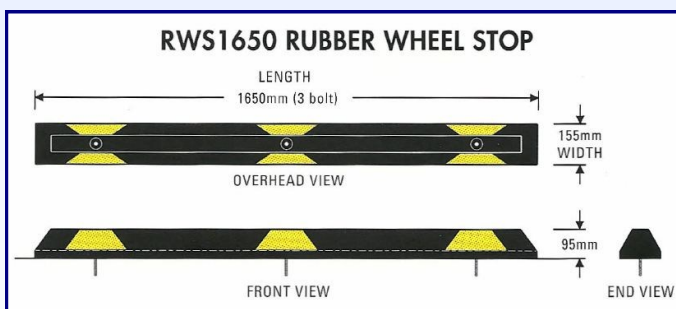

These wheel stops are suitable for use in factories, warehouses, and both private and commercial car parks. Fixings are provided on request for fitment to either a concrete slab, or an asphalt road surface.

### Product Features:

- Complies with AS2890.1:2004
- Economical and simple to install
- Can't chip or corrode
- Comes complete with fixings

### Specifications:

- MATERIAL: Recycled rubber
- FINISH: Solid rubber with yellow reflective panels
- LENGTH: 1650mm
- WIDTH: 155mm
- WEIGHT: 12 Kgs
- FIXINGS: Varies depending on surface
